MULTI-TOOLS

SOG Multi-tools

Power and precision define the SOG line of multi-tools. SOG's patented compound leverage combined with the most precise plier heads in the industry stand up to the toughest jobs while providing a level of precision and sophistication only available from SOG.

Unbeatable power: Pliers are at the heart of every multi-tool and ours use compound leverage like that found on bolt cutters to provide 2X more grip force than any other available – from anyone.

Unmatched precision: Wire cutters powerful enough to cut through steel, but precise enough to cut paper. Our plier heads look like fine jewelry, but function like rugged industrial tools.

Most Innovative Rapid Deployment Systems:

- All SOG **PowerLock** multi-tools have smooth one-handed opening, unlike any others on the market. Now available in a

TSA compliant version* (**PowerLock Traveler**), so you can have the power and utility of a full size multi-tool anywhere your adventures take you.

- SOG **PowerAssist** combines smooth one-handed opening of the plier head with the speed and reliability of SOG's assisted opening technology (S.A.T.).
- Our newest innovation: **SwitchPlier**, the only one-handed opening spring assisted plier head on the market. The SwitchPlier is the switchblade of multi-tools. Push the button and feel the pliers spring into action with the feel and sound of a switchblade knife – ready for anything and legal everywhere.

It is no surprise that SOG multi-tools can be found in the hands and on the belts of carpenters, first responders and even the most elite warriors – ensuring each carrier has the tools they need to get the job done.

SOG Illumination

Work and play don't always happen during the day. Our innovative line of lighting products is always ready anytime, anyplace. Be it self-defense, lighting the trail, or making a work space bright, SOG **Dark Energy** tactical lights and **BladeLight** illuminated knives make the perfect tools for any night mission.

Dark Energy Tactical Lights:

Design like no other. Ultra bright and efficient CREE LEDs provide the brightness and longevity required for night patrols, self-defense, or simply working in dark cramped spaces. Tactical flashlights are indispensable tools that can go places knives are not allowed.

All Dark Energy lights feature:

- Compact and ergonomic design means they can go anywhere while fitting your hand perfectly.
- **Tactical "On"**, means that the lights always turn on at maximum power to create a blinding self defense tool.
- Knurled aluminum housings with **MIL-SPEC Type III** anodizing for unbeatable grip and durability.
- **5-way switch**; Momentary on/off, full bright to temporarily blind an attacker, mid power for battery saving bright light, reading mode for close-in work and maximum battery life, and strobe function for tactical and rescue applications.
- **Stand Straight tail cap** allows all Dark Energy lights to stand on the tail cap for hands free operation.

The award winning **BladeLight** is the newest innovation in lighting from SOG. The BladeLight combines the oldest tool known to man with modern lighting technology into one dual-purpose product.

All BladeLight knives feature:

- **CREE LEDs** on both sides of the blade for perfect and patented shadowless light on whatever you need to cut. Better than a headlamp, which casts shadows making precision work difficult.
- Purpose built **SOG Sharp** blades for hunting, fishing, and everyday needs.
- Silent leather sheath on the BladeLight Hunt to make sure you go undetected.
- **Award winning** molded sheath for Fillet, Camp, and Tactical models, allows the knives to be used as flashlights while sheathed and a carbide V sharpener lets you easily maintain a perfect edge.

Whether it is the ultra-bright lights of the Dark Energy Series or the extremely useful BladeLight Series, as soon as you hold one, you will realize why they are so popular and trusted by law enforcement, military, and first responders.

BladeLight Folder Mini NEW

Combination folding knife and flashlight using our Dark Energy technology, features 4 super bright LEDs built directly into the handle producing 53 Lumens of light with an IPX 4 rating. Uses four CR2032 batteries to provide just over 9 hours of runtime.

SOG Folding Knives

SOG's folding knives have been proven by the likes of law enforcement, US Special Forces, and for everyday carry. Using high-quality materials, proven and innovative technologies, **low-carry pocket clips**, and award winning designs ensures that SOG knives meet the demands of the most critical user, you.

Rapid blade access: SOG Assisted Technology (SAT), available on models like the **Zoom**, **Trident Elite**, and **Twitch**, provides the fastest blade access available. As you initiate the opening action, the force propelling your blade open becomes greater than the force keeping it closed. The result is a blade that springs open instantly once it is engaged.

SOG Sharp: A sharp edge is the heart of any knife, which is why SOG uses **Cryogenic Heat Treatment**. This process slowly decreases the steel's temperature to -300° Fahrenheit, then raises it back to

room temperature. This relieves blade stresses on an atomic level resulting in an increase in toughness and wear-resistance.

One-handed operation: Our premium folding knives use the patented Arc-Lock™ mechanism, which is a completely ambidextrous lock, with one-hand opening and closing. The **Arc Lock™** has also been lab tested to withstand over **1,000 pounds of force**, making models such as Vulcan, FatCat, and Tomcat among the strongest, fastest, and most durable knives available.

SOG's folding knives are great for hunting, camping, and concealed everyday carry. They range in size from the minuscule **Micron** to the large and elegant **Kiku Folder**. Whether you are building a campfire, defending yourself or simply looking to cut some rope – there is a SOG product for everyone.

Spec Elite II / Spec Elite I

General purpose Arc-Lock folding knife, available in two sizes. Features glass-reinforced nylon handle with stainless steel liners, bead-blasted VG-10 blade, and reversible pocket clip.

FIXED BLADES

SOG Fixed Blades

In 1986 SOG began its journey by replicating a unique combat knife, the **SOG Bowie**, and paying tribute to the Special Ops unit in Vietnam that created it. Twenty-nine years later, SOG is the world's leader in specialized fixed blades, offering superior sharpness, styling, feel, and balance with every knife.

Premium Materials: Our fixed blades are crafted using some of the best materials available such as **S30V** stainless steel in the Huntspoint, **USA made leather** and **Kydex sheaths** for the Tech Bowie, and linen **Micarta handles** on the Kiku Series.

SOG Sharp: Just like our folding knives many of our fixed blades use **Cryogenic Heat Treatment** for increased toughness and heightened wear-resistance. Additionally, edges stay sharper longer and demonstrate a significant decrease in micro-fracturing and edge-chipping.

Every SOG fixed blade is developed with its end-user in mind – from the needs of elite forces to the simple tasks of everyday life, SOG has you covered.

▲ TABLE OF CONTENTS

Forge

^ TABLE OF CONTENTS

SOG GEAR

SOG operates with the expectation that any tool we create will be used often and hard. Made for the outdoors and more, SOG gear is for people who need great tools for everyday use. From tomahawks to throwing knives to axes, there is a piece for you.

Preparedness: Our new **Survival Hawk** was created to be useful in any situation, and features full tang stainless steel construction, 550 paracord wrapped handle, wire breaker/prier, and built in **ferrocium firestarter** rod. Take comfort in knowing that you are prepared for anything.

Updated: The newly updated Throwing Knives have a lightweight and balanced design. They can be used as throwing

knives or individual fixed blade knives and even include 52 inches of paracord wrapped around the handle.

Forged: Our Base Camp and Backcountry Axes feature a fully forged cutting head for the ultimate in durability and power. Combined with the forged ergonomic shape of the Base Camp handle, or the saw hidden in the handle of the Backcountry, they are great tools for the outdoors.

From Survival Hawks to Throwing Knives, there is a SOG product for you. And like all SOG products, SOG gear comes with free sharpening and a **lifetime warranty**, allowing you to go about life without worry.
