

SOG®

Extraordinary Tools & Blades
2006-2007 Product Line

Why SOG?

Since 1986, we've been creating the strongest multi-tools on the market and the knives that make your buddies drool. We don't settle for the ordinary. We never did, and we never will.

Our newsplitbullet logo symbolizes our determination to produce quality products that stand up to extreme conditions. It requires vision and tenacity to dream beyond the expected in order to create the exceptional. It takes a team that is dedicated and disciplined to hold exacting tolerances that can make the difference between magic and mediocrity... and all of this at affordable prices! Actually SOG products are so good... you'd expect to pay more.

This high-speed photograph was taken at a millionth of a second and captures a .45 caliber bullet after being fired from point blank range. The blade shows up white where lead has been deposited after 17 shots. This is a testament to the durability of SOG edges. Nobody should ever try to split a bullet with a knife edge, but isn't it nice to know that you could!

SOG's manufacturing plant in Lynnwood, Washington.

"As a designer... my goal on every product is to attain perfect balance... not just the weight, although this is a very discriminating feature of SOG products, but a balance of 'fashion' vs. function with price being the fulcrum. I am always trying to create options for our customers... i.e. whether it's how many ways there are to carry the knife or the variety of features in our multi-tools. In the end... the click of the lock, the swoosh of the blade opening, and the quiet cut of a perfect edge... are the true test of total performance. In other words, the details are what tell our customers we did everything right"

Spencer Frazer
SOG President & Chief Designer

Multi-tools

SOG owners don't just love their SOGs, they depend on them every day for the expected and the unexpected. SOG makes the only multi-tools in the world with one-handed flip opening and gear-driven Compound Leverage™ for double the plier power. From our miniatures to our industrial models, SOG has a multi-tool for every vocation.

PowerLock

Fixed Blades

SOG is the world's leader of specialized fixed blade knives. All of SOG's fixed blades offer superior sharpness, styling, feel and balance. This is why the US Navy SEALs and other elite forces choose to carry SOG fixed blades on fronts around the world. We also realize that you require knives to fit your everyday use. That's why we continue to develop new products and configurations to keep you prepared for anything.

SEAL Pup Elite

Folding Knives

You want cool? Okay, how about award-winning folding knives that combine experimental design with precision engineering? SOG takes risks to bring you technological advancements such as the Arc-Lock™ advanced blade lock mechanism, and a whole new speed in lightning-quick blade access with patented SOG Assisted Technology (S.A.T.™).

SOG Trident

"I discovered SOG Knives during my career in the Marine Corps. Every SOG product I have ever owned has outlasted and outperformed any other edged weapon or tool I've used. Now, in law enforcement, my colleagues continuously reaffirm SOG is an elite choice. In the field, on the street, at home or at play, SOG weapons stand out and hold up on any occasion."

Gary Drake is one of the nation's top defensive tactics instructors. In addition to being a former Marine and having 13 years of experience as a corrections officer for high security trials and transport, "The Drake" works with and instructs SWAT, CERT, and SERT teams across the country in weapons and defensive tactics.

Gary Drake, State Academy Defensive Tactics Coordinator

"I have always been demanding on my equipment. It must perform flawlessly. Whether it's real world operations, competing for a World Championship, or day-to-day use, equipment failure is not an option. If you want performance, reliability, affordable quality and state of the art design, then SOG knives should be your choice!"

Bennie W. Cooley Jr. has more than 19 years in counter-terrorism and hostage rescue training, including over 17 years experience with the Special Operations Division at the Department of Energy (D.O.E.). He is a 4 Time USPSA 3-Gun National Champion and 3 Time Soldier of Fortune World Champion. His experience and skill makes him one of the most knowledgeable and dynamic trainers sought after today.

Bennie W. Cooley Jr. Lieutenant, Spec. Ops. D.O.E.

"I carried the SOG PowerLock into the Australian bush with me while training troops for The Great Raid, and it proved to be the only tool I needed for bush-craft, equipment and weapons repair. When we got to shooting, I wasn't surprised to notice quite a number of the working Australian movie crew also carried SOG multi-tools. This is the best of a long line.

Captain Dale Dye is not only a highly-decorated soldier, technician and military historian with combat experience around the world, he provides technical advice to the entertainment industry worldwide.

Dale Dye has set up boot camps for some of Hollywood's biggest stars. His expertise can be seen in such great motion pictures as *Platoon*, *Saving Private Ryan*, *Born on the 4th of July*, and *The Great Raid*.

I've used SOG knives and tools for years...and I'd expect few people give them the workout I do in field work for movies and TV. My field gear always includes a few SOG blades and they've never failed me. The range, quality and design are all top-notch. I especially appreciate the thought and practical user aspects that go into SOG knives. They fit the hand and fill the bill."

His unique approach to film-making provides a special touch of veracity, flair and color to all productions including themes involving espionage & counter-espionage, terrorist & counter-terrorist operations and military special operations involving all historical periods and branches of foreign and domestic military services.

Captain Dale Dye, U.S. Marine Corps Ret.

Customer Comments

We didn't have to go far to find thousands of satisfied SOG knife and tool users. They sought us out from all corners of the globe. We appreciate the time that these customers have taken to express their satisfaction and compelling stories about SOG products. Here is just a sampling...

I am seldom inclined to promote any particular product, but I am so impressed with the broad range of utility of my PowerPlier that I am compelled to write to you. Last summer my son and I traveled to the British Isles and spent 5 weeks on bicycle touring. From the moment we landed and had to assemble our bikes to the evening before departure when my son required pulling of a bothersome loose baby tooth, the SOG was invaluable. It became affectionately known as 'The SOG'. I suppose you could say I've become addicted. Thank you so much.

John Snively - British Columbia

I normally buy only custom knives but I liked your SOG Bowie and the Recon Bowie. I bought both and I have to admit that the quality is superior to my Randall's.

Dutillieux J - Belgium

I have had many knives in my life and all of course claiming to stay sharp through anything and none of them ever actually doing it, until I bought your product. I was mobilized back in January and bought your knife at the PX in Ft. Dix NJ. I have had that knife for almost 10 months now and it has stayed sharp through more than I ever thought a knife could.

Jason P

I am not one to write letters to manufacturers express my satisfaction about their products but I felt compelled to write about what a great knife the Flash II is. I am a professional Firefighter/EMT and was given a Flash II as a gift. The knife has always been handy and tackled tasks in emergency situations with ease.

However, yesterday, my Flash was finally put to the real test. We responded to a call for a steelworker that fell off a building. There were obvious signs of neck and spine injury upon our arrival so not moving the patient as much as possible was top priority. Right off the bat we were faced with a problem: the patient was wearing a class I fall protection belt around his waist that was heavy nylon stitched over thick leather. The belt buckle had slid under him so unbuckling the belt was not an option and there was no easy way to get the belt off without moving his hips and back. I decided the only way get the belt off was to cut it off and pulled out my Flash II. I braced for what I thought would be a very tough assignment: to cut this heavy belt off while trying not to move the patient's back. I was ABSOLUTELY AMAZED at how easily my Flash II cut through this belt. It sliced through the belt easily, quickly and without having to hack at the belt, which could potentially worsen the injury.

John K - Professional Firefighter/EMT

We believe that a knife and tool are essential equipment for modern life.

Compound Leverage™

Compound Leverage has become a SOG patented trademark for folding tools. With the same hand pressure you will generate twice the wire cutting and gripping power than all other conventional designs. Don't believe us? Use the wire cutter on one of our Compound Leverage multi-tools to cut some hard wire and feel the smooth power. Then do the same with someone else's multi-tool...

...and try not to bust your hand.

PowerLock® s60

As one of the original multi-tool manufacturers, we have learned quite a bit over the years. Like how to make the toughest tools with patented gear driven compound leverage mechanisms. You have let us know, that quick access is a must. Just flip our tools out with one hand and see for yourself how well we listened. Versatility in the field is a necessity and hex bolt construction provides access. There is also a myriad of features that you might not readily see, like our saws cut faster and our files shave better. And while you are at it check out one of the best scissors in the business. Does all this make sense? You bet, which is why leading military forces choose SOG!

Pivoting handle covers increase comfort and allow more pressure to be exerted on those tough jobs.

SOG's amazing folding scissors have spring tension in the open position - an additional SOG safety feature

The EOD PowerLock (S61) features the only Compound Leverage blasting cap crimper, making crimping so much easier. Unlike all other designs, the crimper jaws are mounted on the opposite side of the plier head, inside the handles, allowing for an uninterrupted plier jaw and minimizing crimper/plier breakage.

The foldable 1/4" drive will turn sockets or, with a standard adapter, any hex screwdriver.

The devil is in the details. Look closely at all SOG tools and you will see the difference.

One-handed flip open available on PowerLock and PowerPlier series

Sometimes a small change can make a big difference. The addition of the patent pending V-Cutter to SOG tools opens up possibilities. Whether cutting seat belt, paracord, fishing line, zipping electrical cable sheathing, opening packages or stripping wire, the V-Cutter performs at a higher level, guaranteed!

PowerLock • S60

Closed: 4.6"
 Open: 7"
 Weight: 9.6 oz.
 Comes with: Leather pouch
 Option: Nylon pouch

Components: pliers/gripper, hard wire cutter, crimper, double toothed wood saw, 1/2 serrated blade, 3-sided file, large screwdriver, Phillips screwdriver, 1/4" drive, awl, can opener/small screwdriver, bottle opener/med. screwdriver, scissors, rulers, and lanyard ring.

Versions:

S60	Standard
B60	Black oxide
S61	EOD standard
B61	EOD black oxide
S62	Standard w/V-Cutter
B62	Black oxide w/V-Cutter
S63	EOD standard w/V-Cutter
B63	EOD black oxide w/V-Cutter

SOG's PowerLock, EOD PowerLock and Paratool also come in a black oxide coating for low reflectivity. We know that not everyone wants their SOG to attract attention while on duty...especially when it's on the field of battle.

CrossCut® cc50

The CrossCut and CrossGrip are precision instruments for cutting, gripping, personal care and the unexpected. SOG's gear-driven Compound Leverage allows for big-sized cutting power to be truly miniaturized. Open the handles and these micro machines are ready to work for you. Wait until you feel the action!

CrossCut • CC50

Closed: 2.5"
Open: 4"
Weight: 1.7 oz.
Comes with: Vinyl pouch

Components: 1.3" cutting scissors, straight blade, nail file, med. screwdriver, bottle opener/ sm. screwdriver, tweezers, toothpick, ruler, and lanyard ring

CrossGrip® cg55

CrossGrip • CG55

Closed: 2.5"
Open: 3.6"
Weight: 1.9 oz.
Comes with: Vinyl pouch

Components: pliers/gripper/wire cutter, straight blade, nail file, med. screwdriver, 2-sided Phillips screwdriver, bottle opener/sm. screwdriver, tweezers, ruler, and lanyard ring.

Paratool® s31

The Paratool is the only multi-tool with a multiple angled plier head capability. The unique, patented way the Paratool opens allows for the ability to operate at a variety of angles (140°-180°), indispensable in tight spots. The comfort grip handles are smooth on the outside and feature SOG's classic ventilation holes for maximum gripping. Be prepared with the Paratool.

Paratool • S31

Closed: 4.3"
Open: 6.4"
Weight: 6.2 oz.
Comes with: Nylon pouch

Components: pliers/gripper, wire cutter, serrated blade, straight blade, 3-sided file, large screwdriver, Phillips screwdriver, awl, can opener/sm. screwdriver, bottle opener /med screwdriver, rulers, and lanyard ring (optional saw or serrated line cutter).

Versions:

S31 Standard (shown)
B31 Black oxide

Multiple angled
plier head capability

Another great design from Spencer Frazer with special thanks to Blackie Collins.

Pocket PowerPlier™ S44

The Pocket PowerPlier is lighter, sleeker, and sports a slim, needle nose plier head. We managed to pack the same power, durability and strength of the PowerLock in to this smaller package. Features include hex bolt construction, one hand opening and compound leverage.

Pocket PowerPlier • S44

Closed: 4"
Open: 6"
Weight: 5.5 oz.
Comes with: Leather pouch
Option: Nylon pouch

Components: pliers/gripper, wire cutter, 1/2 serrated blade, 3-sided file, Phillips screwdriver, awl, can opener/small screwdriver, bottle opener/med. screwdriver, rulers, and lanyard ring.

Versions:

S44 Standard (shown)
S45 Deluxe - add 1/4" drive and substitute large screwdriver for awl

Leather carry pouch for PowerLock and Pocket PowerPlier.

Look closely at all SOG tools and you will see the difference, such as interlocking teeth on the plierhead.

With Compound Leverage the same hand pressure you will generate twice the wire cutting and gripping power than all other conventional designs. Don't believe us? Use the wire cutter on one of our Compound Leverage multi-tools to cut some hard wire and feel the smooth power.

One-handed flip open available on PowerLock and PowerPlier series

Topo Knives

This is your first view of topographic construction embodied into knife design. We know that you will think it is as stunning as we do, but beauty is not only skin deep! Our patent pending topo construction creates a tactile outer layer using stepped ergonomics that is comfortable, novel, and functional. Immerse yourself into features that not only showcase the SOG brand but also lighten the weight and provide more finger contact for a surer grip. Spencer Frazer chief designer "I am very excited about this new approach that we came up with. This skeletal robotic design compiled of anodized aircraft aluminum layers, steel liners and G10 texture is sure to be a trend setter."

Topo Contour™

This knife in ancient times would have made you a god. Today it just makes you prepared. Designed as a tactical backup, neck knife, boot knife, or for belt carry, the Contour sports the longest edge length for its size. With thumb ridges and wave like grip, one is able to easily control the formidable blade. The sophistication of the knife is matched with an advanced Kydex sheath with lock, and multiple carry options.

Topo Contour (Black TiNi) • C47T

Length: 6.375"
Blade: 2.5" x .110"
Steel: AUS8 Stainless - Rc. 57-58
Finish: Black TiNi coated
Edge: Straight
Weight: 3.0 oz.
Handle: Layered Machined Aluminum/ Zytel
Comes with: Kydex sheath

Topo Contour • C47

Length: 6.375"
Blade: 2.5" x .110"
Steel: AUS8 Stainless - Rc. 57-58
Finish: Bead-blasted
Edge: Straight
Weight: 3.0 oz.
Handle: Molded Glass-reinforced Zytel
Comes with: Kydex sheath

Mini Topo™

An old fashioned pocketknife? No way... but definitely a new species of pocketknife for road warrior executives or anybody else. This is a simple spring back knife, the kind your grandpa might have given you except with a couple of patent pending twists... it will also lock in the open and closed positions. Not to mention....it looks like it is ready to go to the moon.

Mini Topo

Open: 4.75"
Blade: 2" x .080"
Steel: AUS8 Stainless - Rc. 57-58
Edge: Straight
Weight: 1.3 oz.
Handle: Layered Machined Aluminum/Zytel
Comes with: Pocket/money clip

Versions:

MT1 *Satin polished blade*
MT2 *Black TiNi blade*

Topo Meridian™

The Topo Meridian is perhaps the wildest design that we have ever seen and definitely one of the coolest. SOG continues to delight with innovation and forward thinking to bring you products that make you stand out, products that are as individual as you are.

- Patented S.A.T. (SOG Assisted Technology)
- Pass through lock bar with blade kick activation
- Engineered built in safety that locks closed and double locks open
- Available Deep Black Hardcased™ or polished blade
- Upswept blade maximizes cutting edge length
- Ambidextrous design with wave-like grip

Topo Meridian

Open: 7.25"
Blade: 3.25" x .125"
Steel: AUS8 Stainless -Rc. 57-58
Edge: Straight
Weight: 4.5 oz.
Handle: Layered Machined Aluminum/Zytel
Comes with: Pocket/money clip

Versions:

M46T *Black TiNi*
M46 *Satin polished*

S.A.T.™ (SOG Assisted Technology)

S.A.T. (SOG Assisted Technology) propels the blade out once the operator has initiated the one-handed opening action. World-famous designer Spencer Frazer: "I had this idea that I could devise a whole new technology to help open a knife blade quickly and easily." S.A.T. works so well that right-handers can use their left hand equally well to open a folding knife (of course this works oppositely for lefties!). We warn you...this blade action is addictive! Play with it once, and you'll be opening it again and again!

Flash™ Series

The Flash has got to be one of the coolest knives we've ever seen. Forget its wicked-quick blade access, that it handles like a race car on rails, or that it locks up like Alcatraz. It just looks and feels extraordinary. The Flash family of knives feature SOG Assisted Technology (S.A.T.), which employs a powerful piston lock that is easily released with a sliding button. We also had the foresight to incorporate an additional safety lock that gives added security when the blade is closed. Note that when the safety shows red...

...YOU ARE READY TO GO!

The Flash I comes standard with glass-reinforced Zytel® handles and 1/2 serrated blades. Options include straight edge blade, black TiNi 1/2 serrated blade/clips/pivot, hard-anodized 6061-T6 aluminum handles. All Flashes come standard with SOG's patent pending, reversible bayonet mounted clip that ensures the lowest, most discreet carry possible.

Flash I

Open: 5.75"
 Blade: 2.5" x .090"
 Steel: AUS8 Stainless - Rc. 57-58
 Edge: 1/2 serrated or straight
 Weight: 1.3 oz.
 Handle options: Zytel or 6061-T6 machined aluminum
 Comes with: Reversible bayonet clip

Zytel Handle Versions:

FSA-7 Straight edge
 FSA-97 1/2 serrated
 TFSA-97 1/2 serrated, black TiNi blade, pocket clip and hardware

Aluminum Handle Versions:

SGFSA-97 1/2 serrated
 STGFSA-97 1/2 serrated, black TiNi blade, pocket clip and hardware

The SOG trademark low carry pocket clip holds the knife completely in your pocket so it disappears to the outside world.

Flash II

Open: 8"
 Blade: 3.5" x .125"
 Steel: AUS8 Stainless - Rc. 57-58
 Edge: 1/2 serrated or straight-edge
 Weight: 3.1 oz.
 Handle options: Zytel, Camo Zytel or 6061-T6 machined aluminum
 Comes with: Reversible bayonet clip

Zytel Handle Versions:

FSA-8 Straight edge
 FSA-98 1/2 serrated
 TFSA-98 1/2 serrated, black TiNi blade, pocket clip and hardware
 FSA-5 1/2 serrated, TigerStripe with black TiNi pocket clip and hardware
 FSA-3 Straight Edge Bead-blasted
 FSA-6 Rescue

Aluminum Handle Versions:

SGFSA-98 1/2 serrated
 STGFSA-98 1/2 serrated, black TiNi blade, pocket clip and hardware

Camouflage Handle Versions:

CFSA-8 Straight edge
 CFSA-98 1/2 serrated
 CTFSA-98 1/2 serrated, black TiNi blade, pocket clip and hardware

SOG Trident™ TF-3

Our mission was to create an updated SOG folding knife based on historical proven design but launched from a platform of new technology. Somehow, when you see it, you immediately know it is a SOG. When you use it, you definitely know it is a SOG. At a casual glance it has elements of our original SOG Bowie, Tomcat, SEAL Pup, Flash, etc. Upon a closer look, it has features never before put into a knife.

The SOG Trident uses our well-proven means of delivering a knife blade to the open position with S.A.T. Now using our patent pending Arc-Actuator™, the Trident locks stronger and releases easier. There is also a built-in safety to lock the blade closed. When it shows red, you are ready to go.

What also makes the SOG Trident so unique is the patented Groove™ in the handle, which allows the operator to cut paracord, fishing line, etcetera without having to open the blade. Read the story of how an active duty Navy SEAL invented this on page 33.

The SOG Trident's blade is an evolution as well. Taking key elements from previous blade shapes created a distinct hybrid of form and function.

Check out the introduction of a whole new tactile handle concept called Digi-Grip™. With this variable patterning, we can create a coarser grip in areas that require it. Aggressive touch point scallops on key areas of the perimeter complete the look. You will also appreciate the thought behind our bayonet style clip, which is easily switched for right/left hand carry or removed for pouch storage.

The SOG Trident embodies the spirit of elite special forces throughout the world. The only thing that it doesn't come with is testosterone...you have to supply that.

SOG Trident

Open: 8.5"
Blade: 3.75" x .125"
Steel: AUS8 Stainless - Rc. 57-58
Edge: 1/2 serrated or straight
Weight: 3.6 oz.
Handle: Zytel
Comes with: Reversible low-carry pocket clip

Versions:

TF-1 1/2 Serrated with black TiNi blade, pocket clip and hardware
TF-2 Straight edge satin polish
TF-3 1/2 Serrated TigerStripe blade with black TiNi pocket clip and hardware
TF-5 1/2 Serr. Desert Camo
TF-6 Tanto blade satin finish
TF-7 Tanto blade with black TiNi blade, pocket clip and hardware

Assisted Lockbacks

S.A.T. (SOG Assisted Technology) brings the standard lockback knife (which is one of the oldest known knife locks on the planet) into the 21st century. This new concept will change your idea of what folding knives can be. Once the operator has initiated the blade opening action, S.A.T. propels the stainless steel blade out and firmly locks it into place. We warn you...this blade action is addictive. Play with it once, and you'll be opening it again and again. We have even included a built-in safety that either locks the blade closed or can double lock the blade open.

Twitch I™

Looking at the intricate construction of the Twitches reminds us of the workings in a fine chronograph watch...everything right and precisely in its place. These techno wizards feature a pass-through lockbar (patent pending) from which the "kick" of the blade sticks through. By pressing on the "kick", one is able to initiate the opening of the blade. SOG Assisted Technology (S.A.T.) then takes over to finish opening and to securely lock the blade open. What makes these space-age little gems even more beautiful is that they are also affordable!

Twitch I • TWI-7

Open: 4.75"
 Blade: 2.0" x .100"
 Steel: AUS8 Stainless - Rc. 57-58
 Edge: Straight
 Weight: 2.0 oz.
 Handle: Hard-anodized 6061-T6 machined aluminum
 Comes with: Money/pocket clip

Twitch II™

Twitch II

Open: 6.2"
 Blade: 2.68" x .100"
 Steel: AUS8 Stainless - Rc. 57-58
 Edge: Straight
 Weight: 2.6 oz.
 Handle: Hard-anodized 6061-T6 machined aluminum
 Comes with: Money/pocket clip

Versions:

TWI-8 Graphite handle
 TWI-12 Black TiNi blade/BIK handle
 TWI-13 Black handle
 TWI-14 Black machine checkered handle
 TWI-15 Graphite machine checkered handle

TWI-13  1986-2006

TWI-12

Twitch XL

Open: 7.5"
 Blade: 3.25" x .125"
 Steel: AUS8 Stainless - Rc. 57-58
 Edge: Straight
 Weight: 4.2 oz.
 Handle: Hard-anodized 6061-T6
 machined aluminum

Comes with: Reversible low-carry
 money/pocket clip

Versions:

TWI-22 Black handle
TWI-20 Graphite handle
TWI-21 Black handle with black TiNi blade,
 pocket clip and hardware

Twitch XL™

The XL is classy...it moves well, looks right, walks the walk, and talks the talk. It is not just a larger version of a Twitch. It is serious business that can more than get the job done. This is a high-tech statement of sophistication with all the bells and whistles that you expect from the designers at SOG. The fine construction comes together to make the XL one of the most practical and beautiful knives that we have ever handled.

Blink • BBA-99

Open: 5.37"
 Blade: 2.25" x .100"
 Steel: AUS8 Stainless - Rc. 57-58
 Edge: Straight
 Weight: 2.1 oz.
 Handle: Hard-anodized 6061-T6
 machined aluminum

Comes with: Reversible low-carry
 money/pocket clip

Blink™

Blink...and you just might miss it. This robust little knife cuts with the 'big boys' and features a reversible low carry clip. At its well-mannered price, the Blink is the gentleman's knife with a naughty attitude.

The SOG Arc-Lock™

The Arc-Lock just might be the perfect lock. Why? It is totally ambidextrous and has all of the attributes knife designers relentlessly search for, but rarely find. **Strength:** The Arc-Lock far surpasses conventional lock strength, tested at over 1000 lbs. of force measured at the lock in an independent lab test. **Speed:** The Arc-Lock provides lightning-quick, one-handed opening and closing capability. **Safety:** Spring-action securely retains the blade closed. When unlocking, the fingers are safely kept clear. **Durability:** The Arc-Lock is self-adjusting over time and can be easily cleaned for long term optimal performance.

Spec Elite™ I SE14

Utilizing the famous Pentagon Elite platform, we introduce the Spec-Elite series, which capitalizes on one of the best locks in the world, the Arc-Lock. These new racy blades are designed for high performance with the reverse curve main edge and quickness of opening.

Spec Elite I • SE14

Open: 8.75"
Blade: 4" x .135"
Steel: AUS 8 Stainless - Rc. 57-58
Finish: Bead blasted
Edge: Straight
Weight: 4.3 oz.
Handle: Zytel w/stainless liners
Comes with: Reversible clip

Spec-Elite II • SE18

Length: 10.75"
Blade: 5" x .135"
Steel: AUS 8 Stainless - Rc. 57-58
Finish: Bead blasted
Edge: Straight
Weight: 7.1 oz.
Handle: Zytel w/stainless liners
Comes with: Reversible clip

Pentagon Elite™ I & II

Since its debut, the Pentagon Elite series has achieved great popularity among the military and law enforcement community, as well as the general marketplace. The Pentagon Elite knives are impeccably balanced and feature ergonomic glass and Kevlar-reinforced Zytel handles, ambidextrous slotted thumb studs, machine screw construction, a low-reflective bead-blasted blade and clip, SOG's Arc-Lock system, and a reversible military-style clip that enhances gripping. Spearheading the Pentagon Elite is a shark tooth tip that increases point strength.

Pentagon Elite II • PE18

Open: 10.75"
Blade: 5" x .160"
AUS 8 Stainless Steel Rc. 57-58
Weight: 6.8 oz.
Handle: Zytel
Comes with: Reversible clip

Pentagon Elite I • PE14

Open: 8.75"
Blade: 4" x .135"
Steel: AUS8 Stainless - Rc. 57-58
Edge: 1/2 serrated
Weight: 4.3 oz.
Handle: Zytel
Comes with: Reversible clip

Vision™ sv68

Vision • SV68

Open: 8.37"
 Blade: 3.75" x .120"
 Steel: ATS-34 Stainless - Rc. 59-60
 Edge: 1/2 serrated
 Weight: 5.7 oz.
 Handle: Titanium
 Comes with: Reversible clip

Rotating out of a space-age titanium handle is the radical blade of the award-winning Vision. The geometric grind lines focus power on the edge and tip of the polished ATS-34 blade. Completely corrosion proof, the titanium handle is lightweight like aluminum, but as strong as steel. Other features include SOG's Arc-Lock, dual thumb studs, and a reversible lightweight clip.

X-Ray Vision™ xv71

X-Ray Vision • XV71

Open: 8.37"
 Blade: 3.75" x .120"
 Steel: ATS-34 Stainless - Rc. 59-60
 Edge: 1/2 serrated
 Weight: 4.3 oz.
 Handle: Zytel
 Comes with: Reversible clip

The X-Ray Vision, with its finely textured black Zytel handle and bead-blasted blade finish, is designed not only for performance, but also for value.

Mini X-Ray Vision™ mxv72

Mini X-Ray Vision • MXV72

Open: 7"
 Blade: 3" x .120"
 Steel: ATS-34 Stainless - Rc. 59-60
 Edge: 1/2 serrated
 Weight: 3.0 oz.
 Handle: Zytel
 Comes with: Reversible bayonet clip

The smaller version of the X-Ray Vision, the Mini X-Ray Vision comes with SOG's new reversible bayonet mounted clip for the lowest, most discreet carry possible.

Arcitech A01

The Arcitech ushers in our new 20th anniversary Platinum line with an exquisite high-end collectable. Combining technical excellence with a spirited new design, the Arcitech has that trait that is so elusive; harmony. A mirror polished San Mai (VG-10 core laminated with 420J2 stainless steel) exotic blade moves smooth as silk and mechanically effortless thanks to our very special Arc-Lock. The titanium bolsters meet old school jiggered bone in a rare and beautiful combination. Investment collectable and very limited production.

Arcitech • A01

Length: 8"
 Blade: 3.5" x .125"
 Steel: San Mai (VG-10 core laminated with 420J2 stainless steel)
 Finish: Polished
 Edge: Straight
 Weight: 4.5 oz.
 Handle: Jiggered bone w/polished titanium bolsters and liners
 Comes with: Pocket clip

Tomcat 3.0

Our first folding knife, the Tomcat, set the standard for the large format lockback and won the overall knife of the year award in 1988. Today the completely rethought Tomcat 3.0 will win your hearts and minds. Like a modern day tank, this heavy duty folder is big time armament but has the finesse to turn on a dime. For instance the 3.0 features our Arc-Lock that combines speed and safety in controlling the massive blade. There is also a new sense of ergonomic balance and feel that makes the Tomcat 3.0 a very soulful package.

Tomcat 3.0 • S95

Length: 8.65"
 Blade: 3.75" x .160"
 Steel: VG-10 Stainless - Rc. 60-61
 Finish: Satin polish
 Edge: Straight
 Weight: 6.5 oz.
 Handle: Kraton handle with stainless bolsters
 Comes with: Nylon carry pouch

Sculptura™ SCT85

In the palm of your hand, the Sculptura has an organic shape with the silky, contoured feel of a stream-worn stone or beach-tumbled shell. It is distinctive. It is unusual. It raises the standard of fine pocket knives.

Sculptura • SCT85

Open: 4.75"
 Blade: 2.0" x .135"
 Steel: AUS8 Stainless - Rc. 57-58
 Edge: Straight
 Weight: 2.0 oz.
 Handle: Zytel
 Comes with: Money/pocket clip

Access Card™ SOGAC75

Designed to be carried comfortably in a wallet, pocket, pack, or virtually anywhere, the Access Card is a 21st century folder that has no boundaries. Crafted out of elegant, slim-line stainless steel, this 2.7" uniquely sculpted blade opens and closes with one hand swiftly and smoothly thanks to SOG's Arc-Lock mechanism. The

Access Card's combination clip cleverly and securely holds bills while a secret compartment hidden within the handle encases a useful tweezers, toothpick, and eyeglass screwdriver.

Access Card • SOGAC75

Open: 6.2"
Blade: 2.75" x .080"
Steel: AUS6 Stainless - Rc. 56-57
Edge: Straight
Weight: 3.2 oz.
Handle: Bead-blasted stainless steel
Components: tweezers, toothpick, and eyeglass screwdriver.

Gentleman • S33

Open: 6.5"
Blade: 2.75" x .120"
Steel: AUS6 Stainless - Rc. 56-57
Edge: Straight
Weight: 3.6 oz.
Handle: Stainless steel

Gentleman™ S33

The Gentleman is one of the slimmest pocket knives in the SOG line. Subtle, stylish, and comfortable, this true classic is high-tech fashion and lightweight simplicity. A drop-point, stainless steel blade offers superior edge holding and features a thumb stud for simple opening. Perfect for etching your company logo.

Sogwinder I • S11

Open: 6.5"
Blade: 2.75" x .130"
Steel: AUS6 Stainless - Rc. 56-57
Edge: Straight
Weight: 3.6 oz.
Handle: Kraton

Sogwinder I™ S11

The Sogwinder I strikes home with a drop-point blade combined with an ambidextrous thumb stud for ease in opening. This knife "zeros in" with a razor sharp blade that folds into a sleek format. Featuring all stainless steel construction and the most aggressive, raised-point Kraton handle, the Sogwinder I delivers state of the art payload regardless of environment.

SEAL Knife Series: After surviving one of the most extensive test and evaluation programs ever undertaken by the U.S. Government that included knives from most U.S. cutlery manufacturers, the SOG SEAL Knife 2000 triumphed. The SEALs are one of the most specialized elite military groups in the world today. SEALs must undergo one of the most rigorous training programs devised to produce the consummate warrior. Only a select few endure and earn the right to wear the SEAL Trident on their uniform. Now available for the civilian market in several sizes, you can be assured that the SEALs have done their homework, so you don't have to.

SEAL Pup™ M37

The SEAL Pup, our most popular fixed blade, is the mini rendition of the SEAL Knife 2000. It offers the same durability and performance and is an excellent field companion for outdoor and underwater adventures.

SEAL Pup • M37

Length: 9"
Blade: 4.75" x .160"
Steel: AUS6 Stainless - Rc. 56-57
Coating: Powder coated
Edge: 1/2 serrated
Weight: 5.4 oz.
Handle: Zytel
Comes with: Nylon sheath
Option: Kydex Groove sheath

Versions:
M37 Powder coated
M37TS TigerStripe

SEAL Knife 2000™ S37

SEAL Knife Evaluation:

The SEAL knife evaluation program included: tip breaking stress, blade breaking limit, sharpness, edge retention, handle twist off force, two week salt water immersion tests, gasoline and acetylene torch resistance, chopping, hammering, prying, penetration tests, cutting six different types of rope and line, low noise and reflectivity evaluation, plus an intense hands-on competition in the field.

SEAL Knife 2000 • S37

Length: 12.25"
Blade: 7" x .250"
Steel: AUS6 Stainless - Rc. 56-57
Finish: Powder coated
Edge: 1/2 serrated
Weight: 12.6 oz.
Handle: Zytel
Comes with: Kydex Groove sheath

Tigershark™ S5

The Tigershark features all the advantages of the SEAL Knife series at a size large enough for chopping applications.

Tigershark • S5

Length: 14"
Blade: 8.85" x .250"
Steel: AUS6 Stainless - Rc. 56-57
Finish: Powder coated
Edge: 1/2 serrated
Weight: 17.1 oz.
Handle: Kraton
Comes with: Kydex sheath

SEAL Pup Elite™ E37T

The SEAL Pup Elite is our high performance new edition to the existing SEAL family of products. Sometimes.... we just 'have to have' more horsepower, the racing suspension, and every available option including sunroof. All kidding aside... the SEAL Pup Elite is serious business and carries on the tradition of supplying the worlds elite military forces. Features include:

- Thicker steel stock (.185")
- AUS8 Stainless steel
- Matte black TiNi Hardcased™ blades
- Newly designed longer ergonomic (touch point) handle with deeper finger grooves
- Racy new blade shape with longer cutting edge
- Added blade spine rasp for notching, filing, and thumb placement
- Injection molded glass reinforced handle scored with grip lines
- Kydex full military sheath with SOG logo and 'Groove'

Super charged performance for the elite in us all!

SEAL Pup Elite • E37T

Length: 9.5"
 Blade: 4.85" x .185"
 Steel: AUS8 Stainless - Rc. 57-58
 Finish: Matte Black TiNi
 Edge: 1/2 serrated
 Weight: 5.3 oz.
 Handle: Zytel
 Comes with: Nylon sheath
 Option: Kydex Groove sheath

Versions:

E37 Satin finish/Straight edge
 E37S Black TiNi/Straight edge
 E37T Black TiNi/Partially serrated
 E37TS TigerStripe/Partially serrated

Tactical Nylon Sheath

Try on these new military carry sheaths that are standard issue with the SEAL Pup and SEAL Pup Elite. Input from our tactical advisors indicated that military departments are changing their uniforms and requirements for attaching hardware. We took this information and designed something new in knife carry. These ballistic nylon sheaths have an all weather cover to protect their cargo from sand, dust, moisture, and do it quietly. Don't want the cover, flip it around and attach behind the sheath with the quick release. Our secondary pouch on the front allows you to complete your gear with a SOG multi-tool or folder. The modular mounting system on the back is the most versatile possible; military belts, MOLLE type applications, belts, vests, etc. are all easily mounted to

The challenge was to create a new breed of extreme fixed blades... suitable for today's modern military, capable night and day, wet or dry, and able to be carried in a variety of ways. But you might ask, what could possibly be new in a fixed blade? The Daggerts and Gov-Tac easily answer this question with contemporary solutions and have been tuned and tweaked for performance at every level. Features include:

- An instinctual new handle shape with bold diamond checkering and scored with grip lines
- Signature washer construction with a molded Kraton rubber grip handle
- SOG's proprietary Hardcased™ TiNi matte black coating on blade, pommel, and crossguard
- A proven robust blade style with flat ground bevels, precision ground grooves, and serrated edge
- Stainless steel sculpted crossguard and pommel (capable of being used as a field hammer)

Daggert™ 1

Who would have thought how far a fixed blade could come! The daggerts are a well thought out complete package. The only thing left for you to decide is which size.

Daggert 1 • D25T

Length: 10.75"
 Blade: 5.65" x .200"
 Steel: AUS8 Stainless - Rc. 57-58
 Finish: Matte Black TiNi coated
 Edge: Straight/ 1/2 serrated
 Weight: 7.9 oz.
 Handle: Kraton Rubber
 Comes with: Kydex sheath

Versions:
 D25T Black TiNi
 D25B Bead-blasted

Daggert™ 2

Daggert 2 • D26T

Length: 11.85"
 Blade: 6.6" x .200"
 Steel: AUS8 Stainless - Rc. 57-58
 Finish: Matte Black TiNi coated
 Edge: Straight/ 1/2 serrated
 Weight: 8.5 oz.
 Handle: Kraton Rubber
 Comes with: Kydex sheath

Versions:
 D26T Black TiNi
 D26B Bead-blasted

Kydex Sheaths:

SOG's Kydex sheaths are designed to be tough in all types of weather and environments. They are military belt and jump rated. Able to be mounted upside down, sideways on a belt, or strapped to an ankle, these self-draining, futuristic scabbards use a friction fit as well as a back-up nylon strap for knife retention.

Gov-Tac™

The Gov-Tac transcends the printed page. You will have to handle it to appreciate that the 'sum' of this knife is so much greater than just its parts. Double precision ground grooves, thumb control ridges, and an extremely thick blade all contribute to this stunning knife.

GOV-TAC • S21T

Length: 11.4"
Blade: 6.1" x .200"
Steel: AUS8 Stainless - Rc. 57-58
Finish: Matte Black TiNi coated
Edge: Straight
Weight: 9.6 oz.
Handle: Kraton Rubber
Comes with: Kydex sheath

Versions:

S21T Black TiNi
S21B Bead-blasted

Mini Pentagon™ M14

Originally designed as back-up for law enforcement and military personnel, the Pentagon series is now popular with outdoor knife enthusiasts as well. They offer the instant choice between a serrated or beveled edge for cutting options. Twin thumb notches enable accurate blade orientation and downward control. The aggressively checkered, flared handles provide confident gripping as well as sensational feel and balance.

Mini Pentagon • M14

Length: 7.75"
Blade: 3.5" x .125"
Steel: AUS6 Stainless - Rc. 56-57
Finish: Powder coated
Edge: Straight/ serrated
Weight: 3.3 oz.
Handle: Hardened Kraton
Comes with: Kydex sheath

Pentagon™ S14

Pentagon • S14

Length: 9.75"
Blade: 5" x .160"
Steel: AUS6 Stainless - Rc. 56-57
Finish: Satin polish
Edge: Straight/ serrated
Weight: 5.8 oz.
Handle: Kraton
Comes with: Kydex sheath

SOG Field Knives:

SOG stands for the Studies and Observation Group, an elite joint services military group in Vietnam designed for covert operations. Sanctioned to develop and purchase their own equipment, SOG created knives for use in one of the harshest environments in the world. It is in this spirit that SOG Specialty Knives & Tools, Inc. was founded.

SOG Bowie™ 2.0 S1T

Our modern replica of the original Studies and Observation Group knife secretly developed and used in the Vietnam War by the 5th Special Forces and other elite soldiers. These individuals were specialists in reconnaissance, infiltration, and behind lines operations. The SOG Bowie 2.0 has become a classic that is unparalleled in quality. The sculpted crossguard, deep hollow grinds and precision detailing, such as the all TiNi coating, and faceted tip are unmistakable signatures.

SOG custom cylinder nut

SOG Bowie • S1T

- Length: 11"
- Blade: 6.4" x .230"
- Steel: AUS 8 - Rc. 57-58
- Finish: Hardcased Black TiNi
- Edge: Straight
- Weight: 12 oz.
- Handle: Epoxied leather washers
- Comes with: Leather sheath with sharpening stone

Super SOG Bowie

How appropriate that for our 20th anniversary we launch a new adaptation of the original SOG Bowie that founded the company. This new large format 7-1/2" blade will stun you with its exacting construction and precise grind lines. Unlike the originals, all parts are protected with our Black TiNi Hardcased coating that is the very best for appearance and performance. The stacked leather washer handle is completely traditional. This year only, the Super SOG Bowie will show our 20th anniversary collectable insignia. SOG today is 20 years smarter and our new products show it.

Super SOG Bowie • SB1T

- Length: 12.875"
- Blade: 7.5" x .250"
- Steel: AUS 8 Stainless - Rc. 57-58
- Finish: Hardcased Black TiNi
- Edge: Straight
- Weight: 17.4 oz.
- Handle: Epoxied leather washers
- Comes with: Leather sheath with sharpening stone

SOG Recon Bowie™ SBR80

SOG Recon Bowie • SBR80

Length: 12"
 Blade: 7" x .225"
 Steel: Sk-5 Carbon - Rc. 57-58
 Finish: Gun blued
 Edge: Straight
 Weight: 11.8 oz.
 Handle: Epoxied leather washers
 Comes with: Leather sheath

The original Recon was the first knife developed and procured by SOG personnel in the Vietnam War. It was designed for SOG's clandestine and cross-border Recon teams which experienced vicious, close-quarter combat. Today there are only a handful of these extremely rare and valuable knives remaining. An exquisite design of the highest caliber, the SOG Recon Bowie captures the essence of this positively unique fixed blade.

SOG SCUBA/DEMO™ SSD89

The SCUBA/DEMO is not only the rarest of the Special Forces SOG knives, it's the most rare military knife in existence. In fact, only one original is known to exist today. Originally 39 were made, and 38 of these were delivered to the Naval Advisory Detachment for missions along the North Vietnamese coastline. Of the 38 issued, 36 were lost in operations and the other two were never seen again.

SOG SCUBA/DEMO • SSD89

Length: 12.25"
 Blade: 7.25" x .230"
 Steel: AUS8 Stainless - Rc. 57-58
 Finish: Satin polish
 Edge: Straight/ serrated
 Weight: 13.0 oz.
 Handle: Epoxied leather washers
 Comes with: Leather sheath with sharpening stone

SOG TECH Bowie™

Based on the classic SOG Bowie that founded our company, but morphed into a top-notch work knife with the use of technology, modern materials, and a little class thrown in for good measure.

For starters all the metal parts are satin finished stainless steel and coated in SOG's proprietary Hardcased™ TiNi matte black coating. It looks incredible! Offset against this, the tactile Kraton rubber handle nods to tradition with the use of interspaced white washers. This has never been accomplished before and provides an unmistakable SOG look. The thick (.240") AUS8 blade is topped off with a faceted tip that is a SOG signature and completes the total package.

SOG TECH Bowie • S10B

Length: 11"
 Blade: 6.4" x .240"
 Steel: AUS8 Stainless - Rc. 57-58
 Finish: Matte Black TiNi coated
 Edge: Straight
 Weight: 11.2 oz.
 Handle: Kraton Rubber
 Comes with: Kydex sheath

Versions:

S10B *Black TiNi finish*
 S10P *Satin finish*

Trident 2.0™ S2B

For those who are looking for the style of the SOG Bowie in a stainless steel design, look no further than the Trident. Our Trident embodies the spirit of our most capable special forces unit, the Navy SEALs, and displays its emblem: the SEAL Trident.

Trident II • S2B

Length: 11"
 Blade: 6.4" x .240"
 Steel: AUS8 Stainless - Rc. 57-58
 Finish: Satin polish
 Edge: Straight
 Weight: 11.2 oz.
 Handle: Micarta washers
 Comes with: Leather sheath with sharpening stone

SOG Bowie™ Commemorative

The knife that started the company is back in its original form. Now very limited quantities are being made available in a rich walnut SOG presentation box with certificate of authenticity. Each knife will be serialized as 1 of 1000 pieces. Still made in one of our original factories with extremely thick gun blued carbon steel blade, crossguard, pommel, and aircraft spanner nut. High quality collectable.

SOG Bowie Commemorative- S1C

Length: 10.75"
 Blade: 6.25" x .280"
 Steel: Sk-5 Carbon - Rc. 57-58
 Finish: Gun blued
 Edge: Straight
 Weight: 12.3 oz.
 Handle: Epoxied leather washers
 Comes with: Leather sheath with sharpening stone and Walnut presentation box

Engraved with Special Forces Crest and Vietnam 5th Special Forces Group

SOG Bowie™ Damascus

This super limited edition of the classic SOG Bowie is hand crafted from a VG-10 core (60-61 Rc) with 49 layered nickel/stainless steel (410J1) blade. This is one stunning piece that is limited to 50 individually numbered pieces. Presented in a unique presentation box with certificate of authenticity and signed by Spencer Frazer.

SOG Bowie Damascus

Length: 10.75"
 Blade: 6.25" x .280"
 Steel: VG-10 core (60-61 Rc) with 49 layered nickel/stainless(410J1)
 Finish: Polished
 Edge: Straight
 Weight: 12.3 oz.
 Handle: Epoxied leather washers
 Comes with: Leather sheath with sharpening stone and presentation box

Field Pup™ FP3

"It's just about the perfect size, weight, feel and balance," is the comment we hear from wilderness guides who handle the Field Pup for the first time. It's comfortable to use with its Kraton molded handle that form fits the full tang blade. SOG's trademarked finger grips are combined with aggressive thumb notches on the back of the blade, making the Field Pup a real working knife. The blade is also protected by SOG's new hybrid Kydex and leather sheath.

Field Pup • FP3

Length: 8.5"
Blade: 4" x .130"
Steel: AUS8 Stainless - Rc. 57-58
Finish: Satin polish
Edge: Straight
Weight: 4.0 oz.
Handle: Kraton
Comes with: Hybrid Kydex/leather sheath and lanyard

NW Ranger™ S24

Sportsmen, fishermen, hunters, and outdoor enthusiasts require a knife that can fulfill a variety of tasks, is easy to carry, and can perform in a wide range of environments. With an elongated clip point blade, flat ground bevels, and compact size, the Northwest Ranger is more than up to the task.

NW Ranger • S24

Length: 9.75"
Blade: 5" x .160"
Steel: AUS6 Stainless - Rc. 56-57
Finish: Satin polish
Edge: 1/2 serrated
Weight: 5.8 oz.
Handle: Kraton
Comes with: Leather sheath

SEAL Revolver™

It isn't very often that a product can create a new category, but the Revolver does just that. SOG has pioneered a fixed blade with a new twist...actually a complete revolution.

The Revolver's secret is simply twice the capability for the same size and weight. Utilizing patented technology developed by Robbie Roberson and Spencer Frazer, you can depress the locking lever and rotate the blade to transform the knife into a saw. It's so easy, so cool, that you'll wonder why it wasn't done a long time ago.

The Revolver comes standard with a new look in blade shape that is not only functional, but distinctive. A survival saw serves as a backup in the handle. The blade features a forward thumb rest for increased dexterity and downward pressure. A glass-reinforced Zytel handle hides the stainless steel liners which ensure strength and quality. And as always, SOG's edges are razor sharp.

Whether you're camping or crusading, why not pack twice the capability with the SEAL Revolver? It just might transform your idea of what a knife should be.

The SOG black TiNi SEAL Revolver was recently chosen to be a part of the Personal Environmental Protective Survival Equipment (PEPSE) system for Special Operations Forces deployed in cold weather conditions.

Revolver with blade locked open in position

Revolver with saw locked open in position

SEAL Revolver

- Length: 10"
- Blade/Saw: 4.75" x .150"

Fusion Knives

Fusion - the merging of several different elements, sometimes violently. Our new import brand melds technical excellence, ingenuity, and affordability to yield products with new properties distinctly different from the mainstream. "I hope you enjoy my latest ideas that chart new territory."
- Spencer Frazer

Fusion by SOG

Fusion Battle Ax

Our modern battle/throwing ax evokes its origins from medieval times, which some might consider to be the present. Whether used as a target ax, SWAT tool, universal back up, or hung above the fireplace; it is very effective. The pike in the back is upswept for better target penetration. Size and heft are balanced for optimum swing control. The handle is sculpted from heavy duty black Pakka wood and the entire solid blade is protected with SOG's Hardcased black coating. Nylon sheath included.

Fusion Battle Ax • F02T

Overall Length: 12.25"
Head Length: 7"
Edge Length: 3.75"
Steel: 420 stainless steel
Finish: Hardcased Black
Edge: Straight
Weight: 20.2 oz.
Handle: Pakka wood
Comes with: Nylon sheath

Fusion Jungle Primitive

Fusion Jungle Primitive

Length: 15.3"
Blade: 9.5"
Steel: 420 stainless steel
Finish: Hardcased Black
Edge: Partially serrated
Weight: 14.0 oz.
Handle: Kraton
Comes with: Nylon sheath

Versions:

F03T Hardcased black
F03S Satin finish

For the primitive in all of us. When the only thing that separates you from them is your equipment, it better be good. Using SOG's Hardcased black coating, the Jungle Primitive is durable and comfortable with a molded Kraton handle that features Digi-Grip™, a way to guarantee gripping power where you need it. One can instantly turn the Primitive into a small machete, limb saw, or hammer. Includes a Nylon sheath with utility pouch. Don't be caught alone!

Fusion Tactical Tomahawk

Based on the Vietnam Tomahawk the new Fusion Tactical Tomahawk is an extreme evolution of the original which was considered one of the more unusual weapons of its day. Today there is a real need for a versatile tool for breaching operations, excavation, obstacle removal, extraction, and other utility applications. The 420 stainless steel head with Hardcased coating is mounted to the hardwood handle with heavy duty bolts and a steel ferrule to keep the wood from splitting. Side hammer checkering insures precise placement when pounding. Carried in a nylon sheath this is a universal tool for modern man.

Fusion Tactical Tomahawk • F01T

Overall Length: 15.75"
Head Length: 8.25"
Edge Length: 2.75"
Steel: 420 Stainless steel
Finish: Hardcased Black
Edge: Straight
Weight: 24 oz.
Handle: Hardwood
Comes with: Nylon sheath

Fusion Throwing Knives

These stylized knives are not only fun to sail through the air, they are practical as well. Completely protected by SOG's Hardcased black coating, they are extremely scratch resistant. Their balance, aerodynamics, and proportions make them great throwing knives. For the same reasons they also make great back-up field knives. Wrap the handles with paracord or use as is and you have three knives for the price of one! Includes nylon sheath that safely carries all three.

Fusion Throwing Knives • F04T

Length: 10"
Blade: 4.375" x .135"
Steel: 420 stainless steel
Finish: Hardcased Black
Edge: Straight
Weight: 5.3 oz. each
Handle: N/A
Comes with: Nylon sheath

SOG Blade Locking Mechanisms

Mechanisms make the world go round. With our 80+ patents and trademarks SOG is always on the forefront of what's happening! This has spawned many firsts in the industry. Here are a few of our little ideas that have made big impacts.

SOG Assisted Technology (S.A.T.™):

The magic of S.A.T. is accomplished with a simple and patented principle. There is a constant force to open a blade and a variable force that wants to close the blade. As one opens the blade the force to propel the knife open becomes greater than the closing force and the blade will open on its own.

“The beauty of this is that we have come up with several mechanisms to accomplish this,” says Spencer. The Flash and SOG Trident knives use a piston lock, the Blink uses a lockback, and the Twitch knives use a lockback with a pass-through lockbar. These are just a few of the mechanisms that we are working on that are covered under the multiple patents. Most of the opening springs we are using are high-tension coil springs. These springs work through the entire range of opening (180 degrees) insuring reliability and long life. S.A.T. allows us to use locking mechanisms that are stronger and more reliable than the conventional liner locks and that are easier and safer to use. This is definitely one of the pluses of S.A.T., since a knife is only as good as its lock. Also our locks are much easier to access ambidextrously (we haven't forgotten about you lefties!).

The Arc-Lock™:

The simple designs are sometimes the hardest to figure out, but this is a great one. The Arc-Lock consists of a lock block that rotates, using an omega spring. It's this one simple spring that provides tremendous locking strength, closing force to keep the blade in the handle, as well as give the blade a little opening boost. This minimum amount of moving parts provides reliability and long cycle life.

**As for the future...
you haven't seen anything yet!**

Groove Sheath:

Over years of experience in the military, an active duty Navy SEAL witnessed a recurring theme: open blades are useful and necessary but dangerous to equipment and personnel. His own personal experience with this problem occurred while training off the California coast where he was deploying inflatable boats out of fixed wing aircraft. Being new and the first one to the boat after it landed in the water, he began cutting away the rigging that attached the parachute to the boat with his knife. He punctured the back of the boat and put his squad at a great disadvantage for the rest of the night.

That experience, coupled with countless stories of injuries to people and equipment, led to his patent pending "GROOOOVE!". He spent months drafting and testing prototypes. This new innovation allows rope/line to be cut without unsheathing the knife.

20 years of SOG:

It's amazing to think that 20 years ago we had one knife that retailed for an unheard of \$169 retail. Today we still sell the SOG Bowie along with a host of other affordable fixed blades, folding knives, and multi tools. Innovation and quality have become synonymous with SOG products, which is one of the reasons that we are a top supplier to the military as well as the industrial marketplaces. In celebration we have taken a select number of our knives and etched a 20th anniversary logo on them - Tomcat II, Vision, Flash II (1/2 serrated), Twitch II w/black handle, Gentleman, SOG Bowie, Super SOG Bowie, SCUBA/Demo, Recon Bowie, and Trident 2.0. These knives will be available in limited quantities and will become instant collectables. Thank you for your support over the years.

*Look for the
20th Anniversary logo*

Titanium Nitride (TiNi) Finish:

Titanium Nitride coatings are some of the toughest coatings that can be applied to steel. They exhibit extreme hardness, are exceptionally scratch and peel resistant, and help increase longevity. This coating is applied using a unique process of plasma deposition that occurs in a complete vacuum.

Tigerstriping:

Tigerstriping is one of most interesting camouflage patterns and was developed in Vietnam to blend into triple canopy as well as other environments. Our artisans at SOG have created a special process to selectively remove TiNi and black oxide coatings to produce these interesting patterns. Be the first on your block to own one!

Custom TigerStriping is available on select products including the Black PowerLock, Pocket PowerPlier plus many more. No two are exactly the same from our custom shop. Call the SOG sales department for more detailed information on custom TigerStriping.

Custom Shop:

The SOG Custom shop can make the knife of your dreams, or at least make your SOG knife a total original. We offer custom bead-blasting, etching, TigerStriping, Exotic woods and more. Just call us for more detail on how to get custom.

Warranty

SOG Lifetime Warranty:

All SOG products are guaranteed against defects in workmanship and materials for the life of the original purchaser. This guarantee is voided (as determined by SOG) by misuse, abuse, improper maintenance, or alterations of the product and does not cover any normal wear that might occur. All guarantee claims should be directed to the factory. U.S. claims should be sent prepaid and insured. For international claims, call or write for information. SOG reserves the right to the repair or replacement of a product at our discretion. Sheaths and pouches are not covered under this warranty. Cases of surface rust, bent and broken tips, and scratched coatings are also not covered under this warranty.

Fusion Knives Warranty:

All Fusion products are guaranteed against defects in workmanship and materials for one year from date of purchase. This guarantee is voided (as determined by SOG) by misuse, abuse, improper maintenance, or alterations of the product and does not cover any normal wear that might occur.

For Warranty information or questions call toll free 888-40-KNIFE [U.S. only] OR (425) 771-6230 E-mail at warranty@sogknives.com)

Etching

SOG has a complete etching department. All of our stainless steel handles and knife blades can be etched with your slogan or company logo.

Displays

SOG point-of-purchase displays are some of the best-designed in the industry. With several different display options, you can showcase SOG products at their best. Choices include a knife/tool or knife only truck mounted display, a combination knife and tool counter model, and our interactive Flash or Blink displays.

BC1-Baseball cap

Gift Box

SOG products make wonderful gifts. You can give many of our smaller products, such as the CrossCut and CrossGrip, in a gift box with velvet insert.
